Critical Policy & Institutional Elements for AFOLU LEDS

1. Communication & Awareness
   a. Community, government, private sector and other stakeholders
   b. Package LEDS with climate resilience

2. Mainstreaming LEDS into government at all levels
   a. Effective and consistent planning
   b. Monitoring & evaluation
   c. Mainstream into existing development strategies
   d. Inter-sectoral coordination

3. Sufficient resources & incentives to support LEDS, coupled with monitoring mechanisms linked to national targets

4. Understanding of cost-effective AFOLU LED options (avoid mismatch between opportunities and action)

5. Regulations to create a long-term framework for AFOLU LEDS (e.g., financial mechanisms and incentives, land tenure)
